

WEEKLY NEWSLETTER NO. 31

March 6, 1957

25X1A9a

**FILE**

██████████ arrived home yesterday and will be with us for a week until March 14 when he will return to Detachment C via Washington. 25X1A9a ██████████ is now completing the details for Detachment C's deployment. Jim will return with a thermostated bubble in his possession for installation.

No. 44 was shipped February 28, 1957 along with ten glass lenses to ██████████. This brings the total of glass lenses shipped to 47. On new instrument production, Nos. 45 and 46 are in process and will be shipped sometime next week. Nos. 20 and 29 are in the plant, having new optics and heated bubble modifications installed. They will be shipped back to the Ranch the end of the week. Nos. 2 and 6 are also being overhauled and will be shipped from our plant the 3rd week of March.

25X1A5a2

Received ██████████ report of February 25, 1957.

Find that his instruments and bubbles are behaving nicely. He also informed us that 25X1A9a ██████████ dropped into see him and brought him up to date on latest plant activities and instrument modifications, particularly that of the heated bubble. 25X1A9a ██████████ telephoned

25X1A6a

Monday and has no problems at ██████████. No word from 25X1A9a ██████████ at B.

The permanent bubble status is such that we hope to install it in Nos. 45, 46 and 47 this month and also begin to ship them to the various detachments for installation.

Until next week.
